Equipment registration

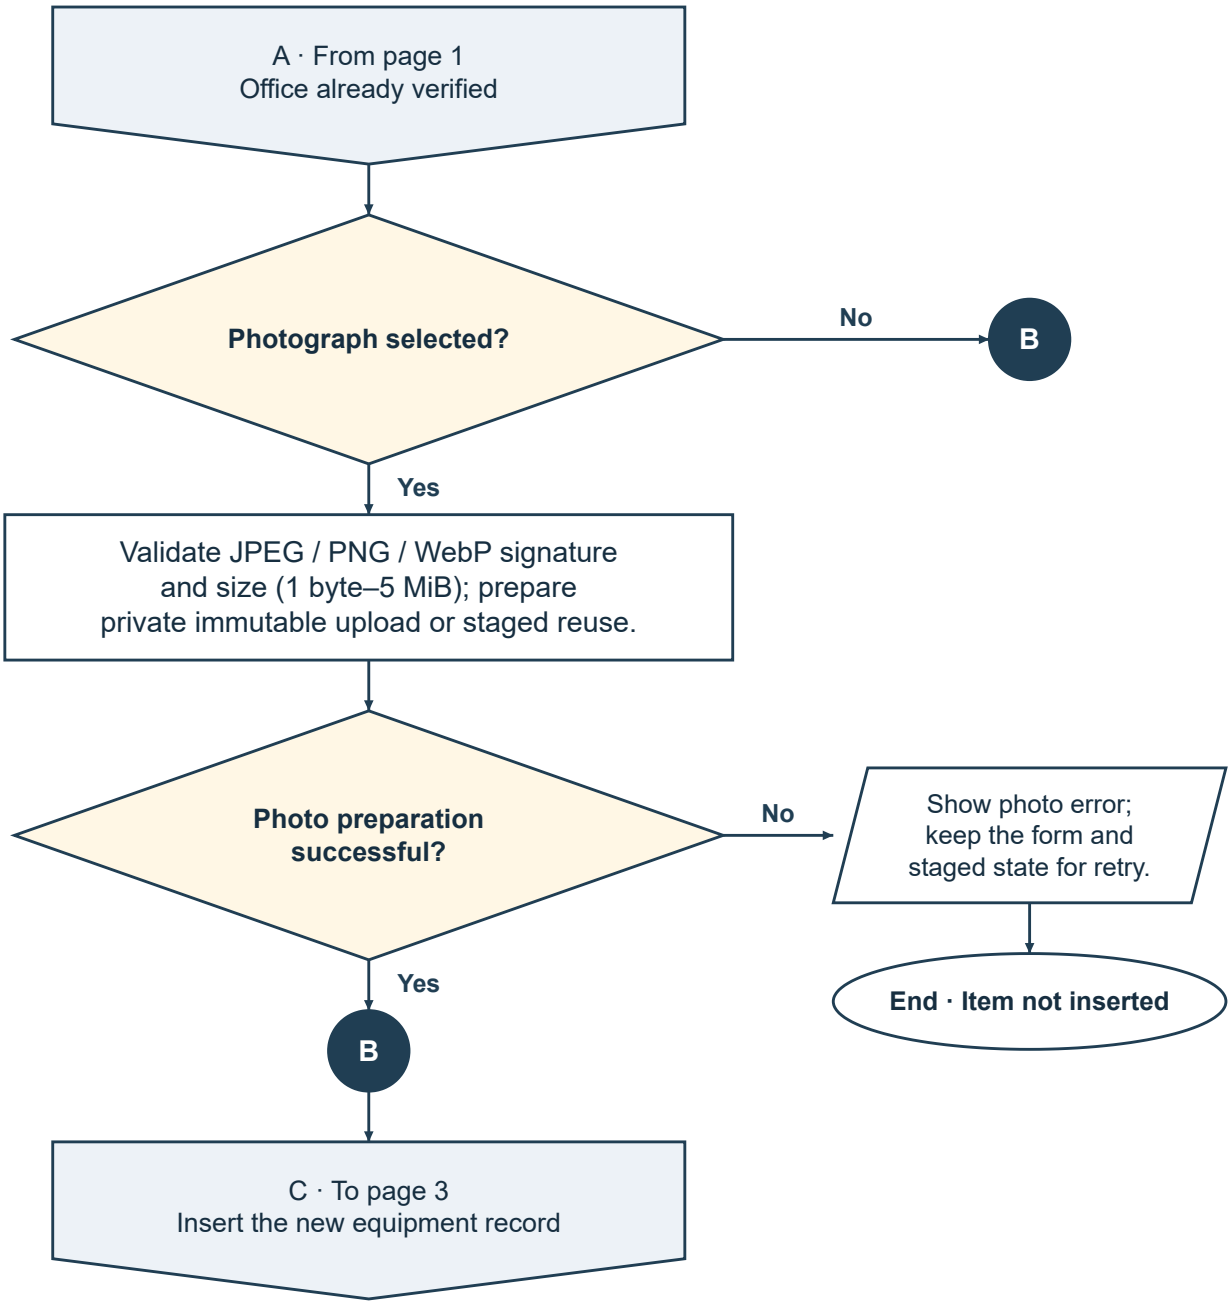

1 / 3 · New item and verified Office

New-item path only. Existing-item editing preserves its existing assignment; this diagram does not reassign inventory.

Equipment registration

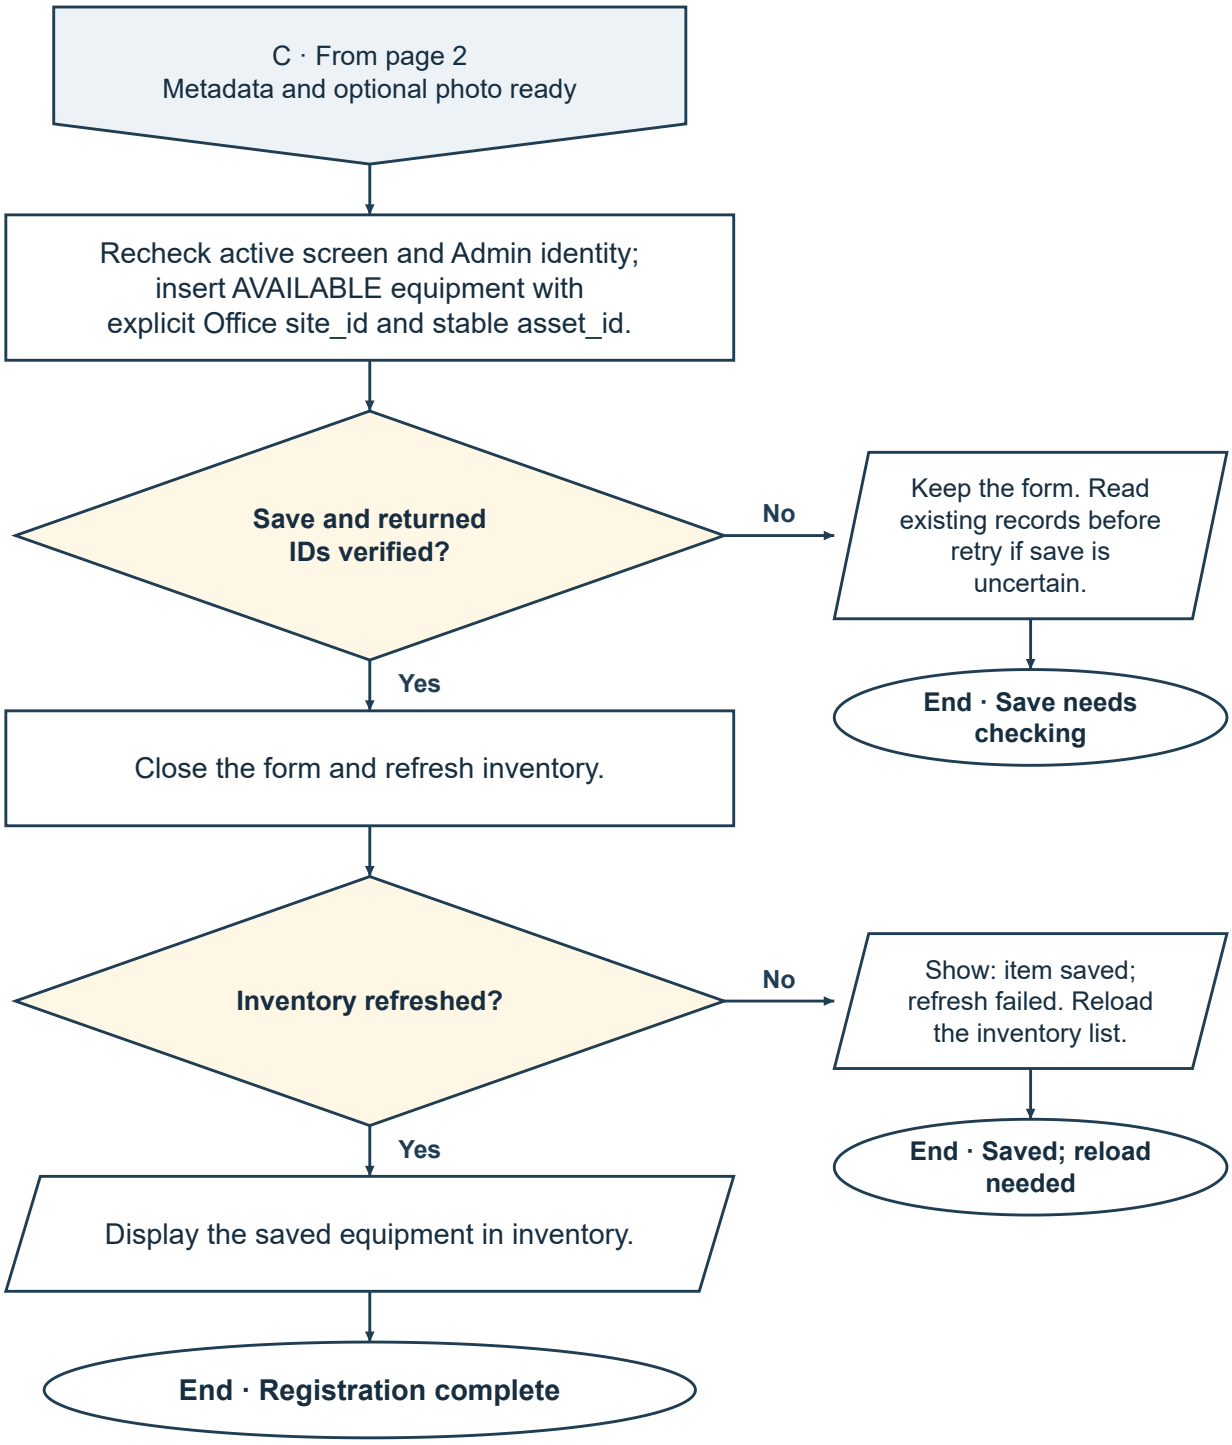

2 / 3 · Optional private photograph

B joins the no-photo path with the completed-photo path. Office validation occurs before any photo preparation.

Equipment registration

3 / 3 · Insert, verify and refresh

A response/verification failure is not proof that no insert occurred. Preserve data and reconcile before retry.
