Transfer receipt and confirmation

Damaged acceptance requires explicit custody acceptance. The backend enforces receiver identity; Admin cannot substitute.

Transfer receipt and confirmation

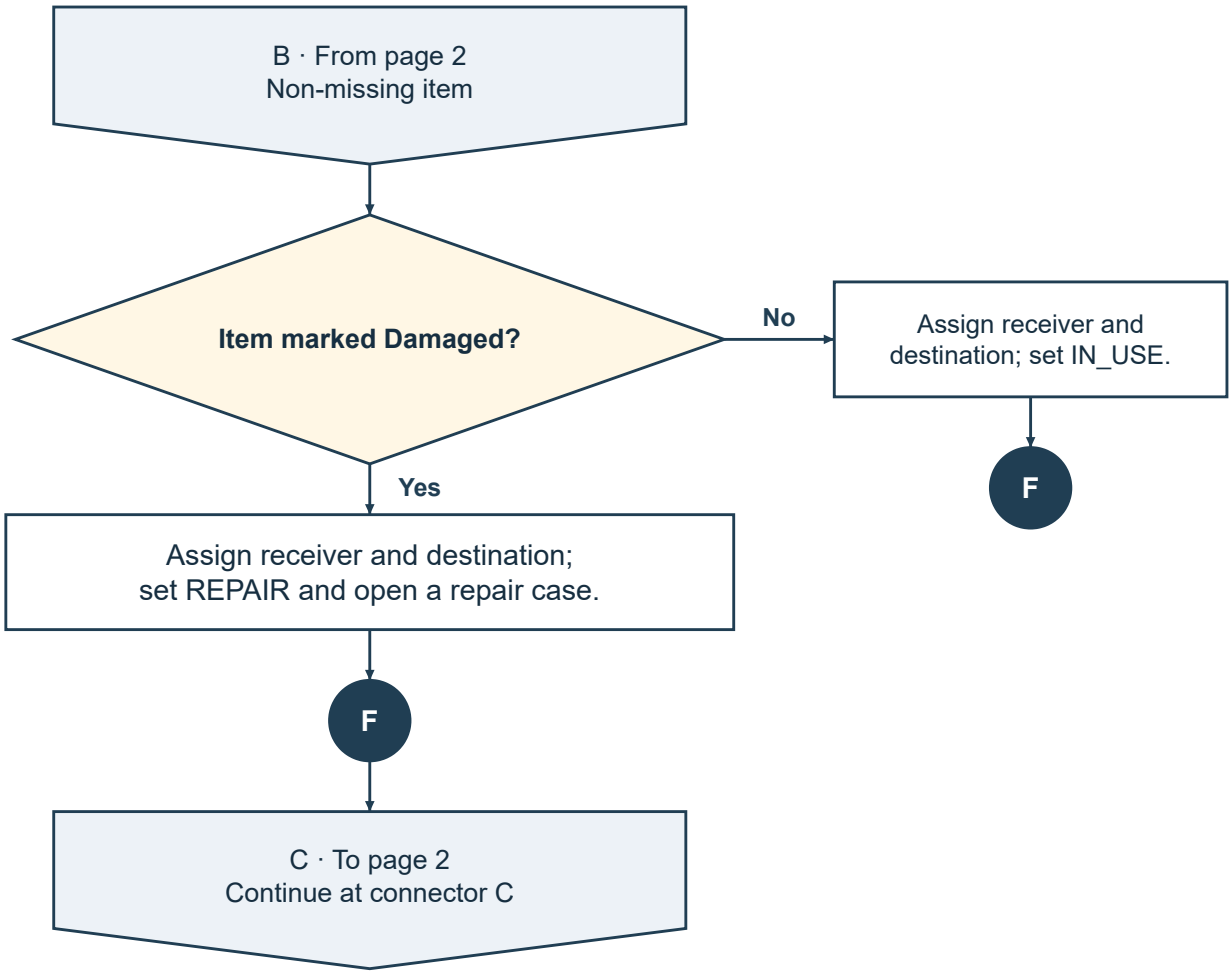

2 / 4 · Classify each inspected equipment record

D repeats classification for the next item. C joins items from page 3. All item effects commit together.

Transfer receipt and confirmation

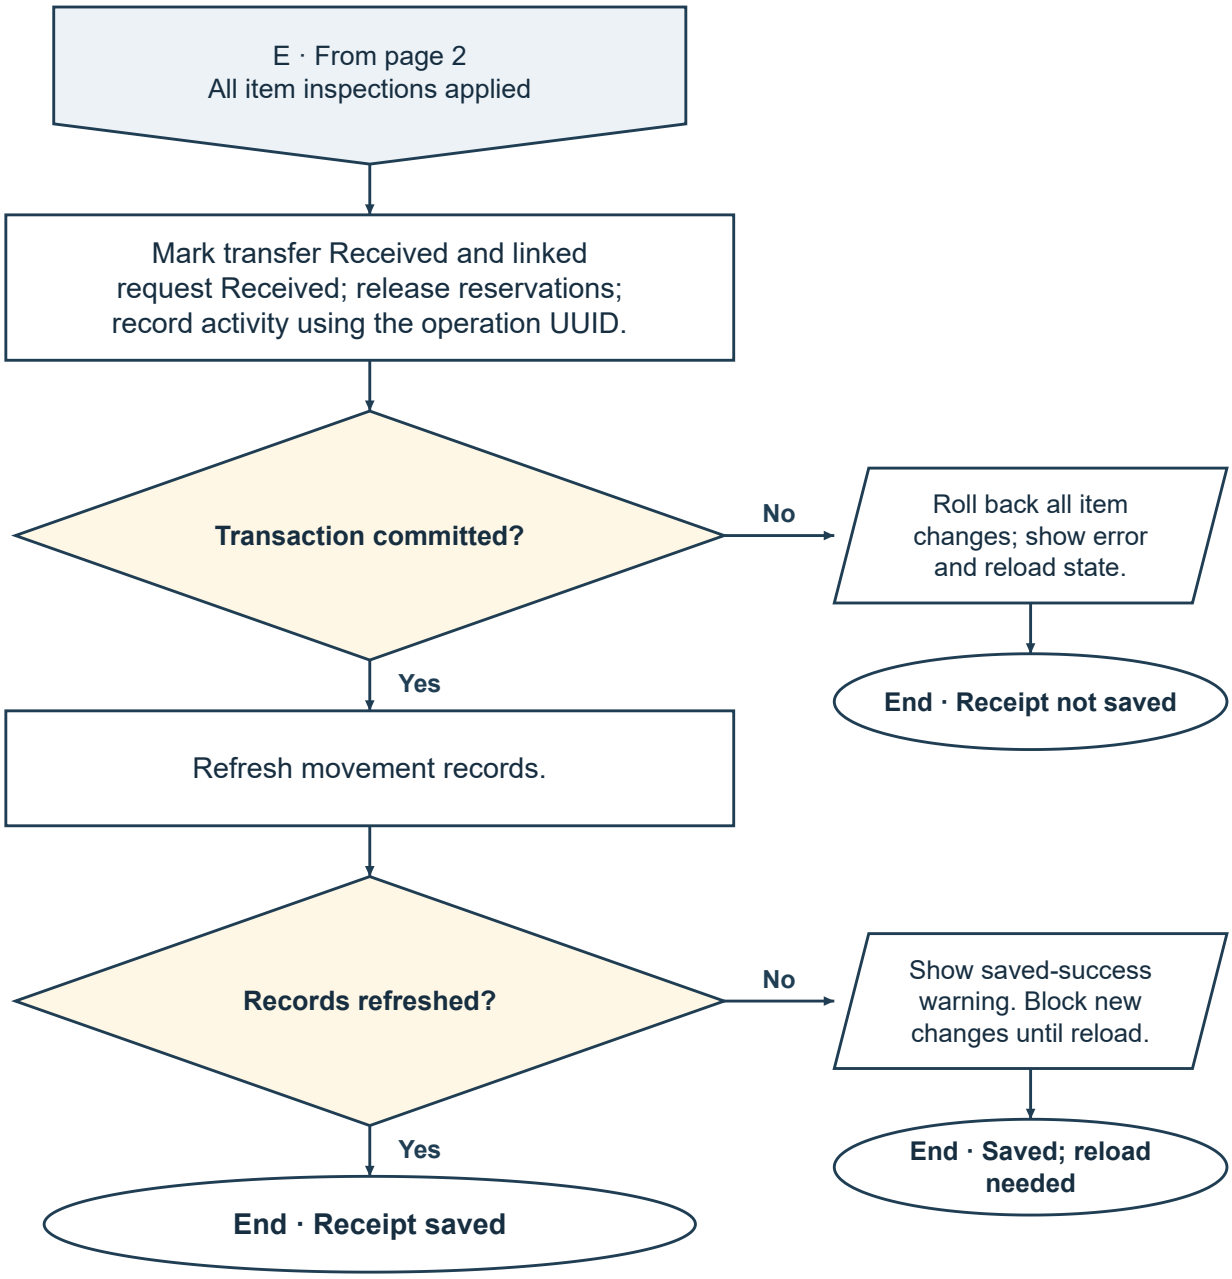

3 / 4 · Good or accepted-damaged classification

F merges Good and accepted-damaged outcomes. Page 2 then selects the next item or completes the transaction.

Transfer receipt and confirmation

4 / 4 · Receipt outcome

Missing tools retain source custody; Good and accepted-damaged tools transfer to the named receiver. A refresh failure does not undo receipt.
