Controlled cancellation and refusal

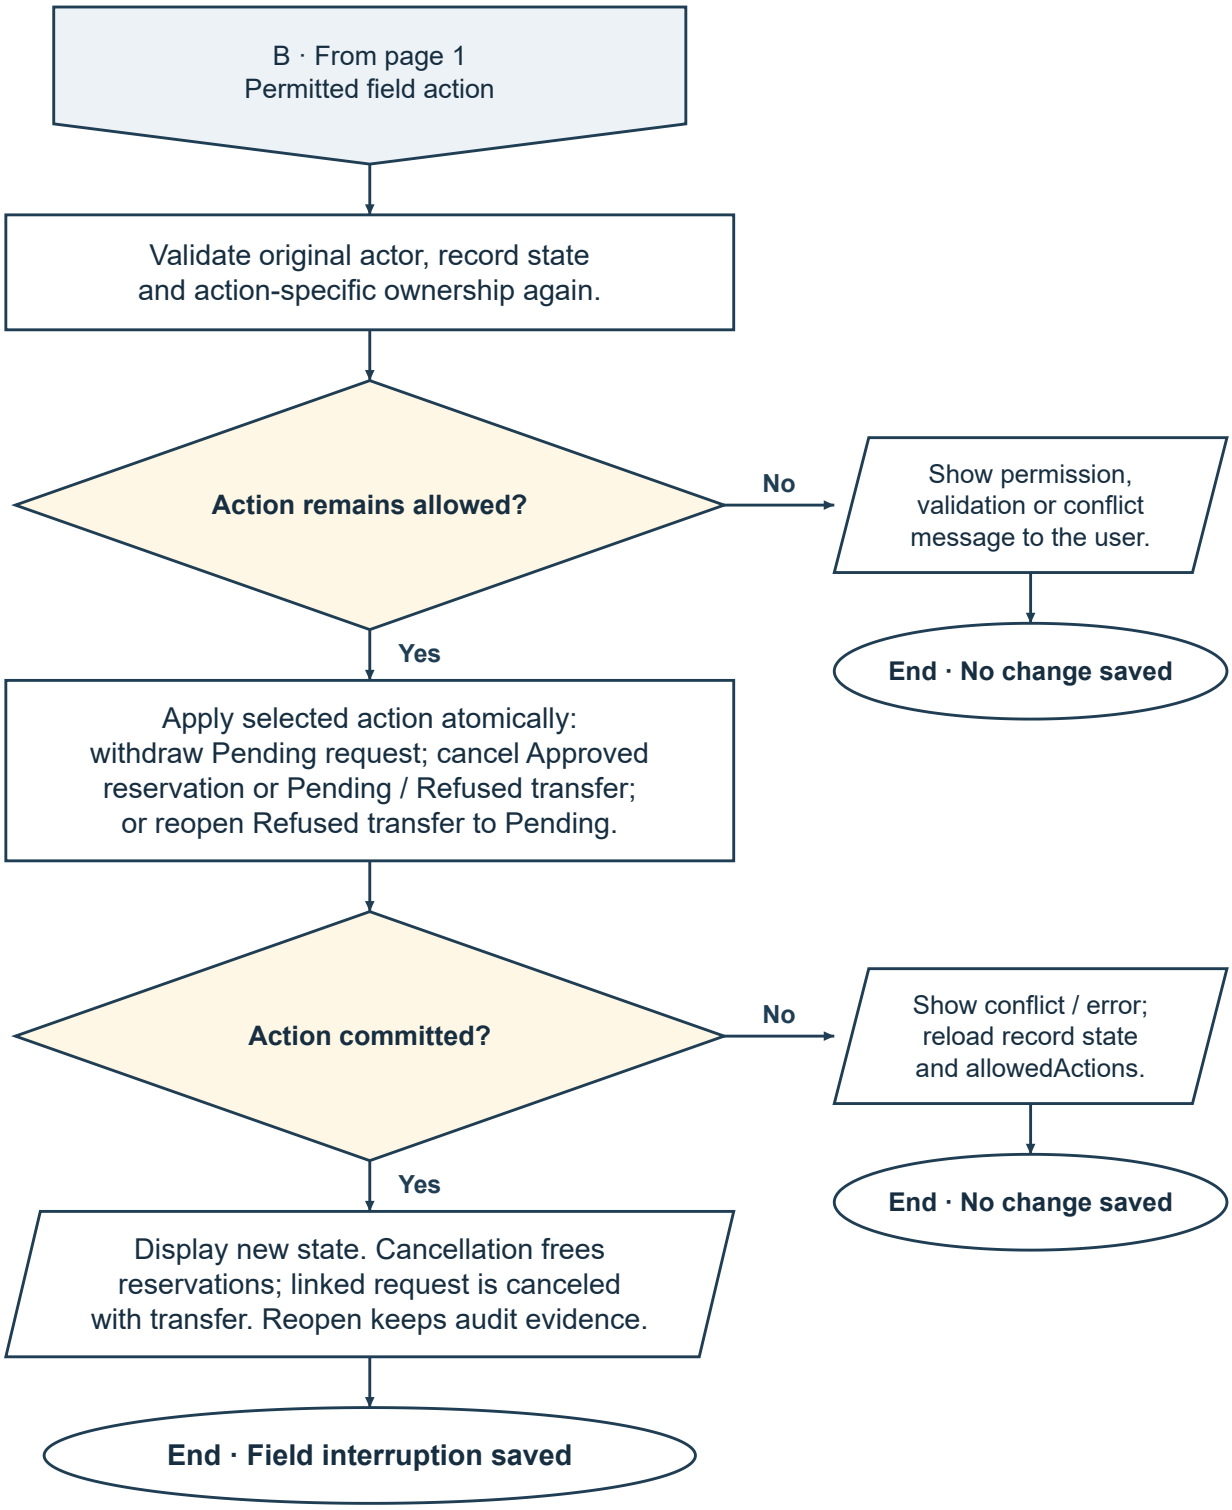

These field controls depend on the cancellation migration/capability. Admin and Tool Handler do not gain these interruption powers.

Controlled cancellation and refusal

Refusal is not partial receipt and does not transfer custody. Initial request releases are subject to the receiver-owned rules.

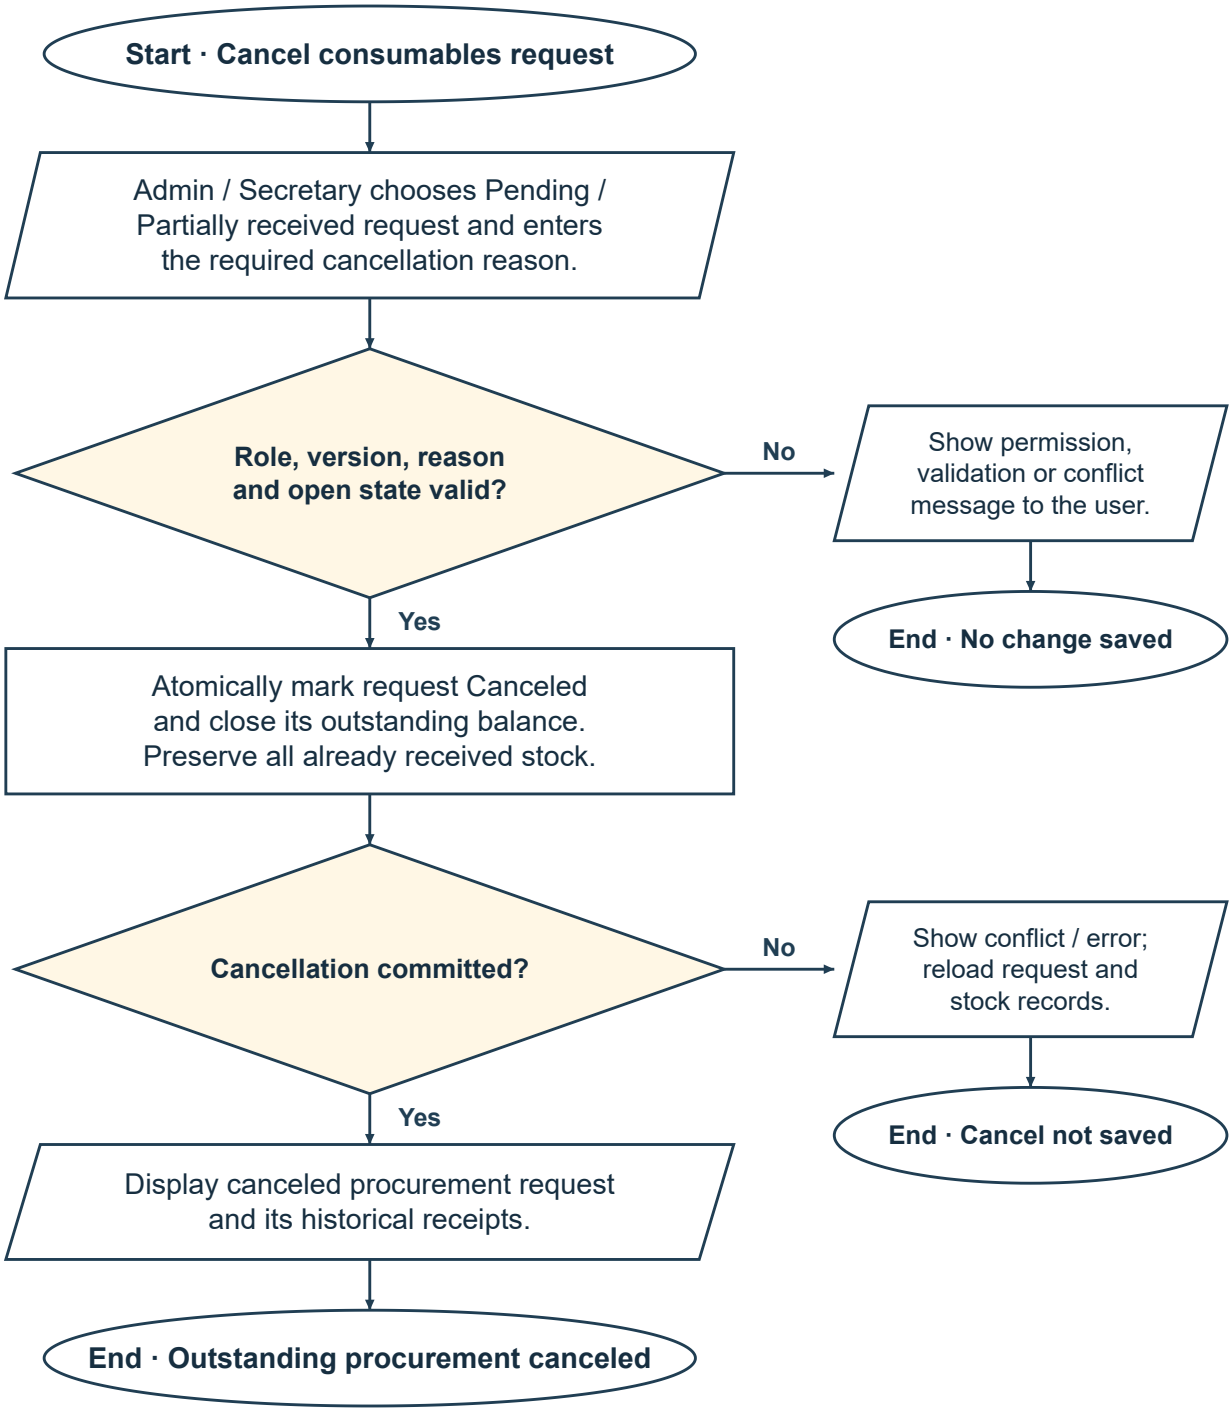

Controlled cancellation and refusal

Only original field sender can reopen. Canceling transfer also permits the eligible requester of its linked released request.

Controlled cancellation and refusal

4 / 4 · Cancel outstanding consumables procurement

This is a separate consumables action with Admin / Secretary authority, independent of optional field movement cancellation.
