BREAKDOWN OF ONE TIME COST WORKSHEET

Assuming that the project development duration is _____ MONTHS

A. Development Cost

Description	Salary/Month	Mo.	Sub_Total
System Analyst			
Programmer			
Encoder			
Researcher			
TOTAL			

B. User Training

Description	Honoraria/day	Sub_Total
User Training		
Training Kit		
TOTAL		

C. ADDITIONAL HARDWARE/SOFTWARE

Description	Unit Cost	Sub_Total
Database Server		
External Drive		
Licensed Software / Vendor Platform		
TOTAL		

Total One Time Cost = Total Development Cost + Total User Training + Total Additional Hardware/Software

BREAKDOWN OF ONE TIME COST WORKSHEET

A. Development Cost	
B. User Training	
C. Additional Hardware/Software	
TOTAL ONE TIME COST	

Total One Time Cost = Total Development Cost + Total User Training + Total Additional Hardware/Software

RECURRING COST

Description	Unit Cost	Annually
Software Maintenance		
Incremental Communication		
Software License Renewal		
TOTAL		

Financial amounts and development duration are blank because the green company inventory table does not supply them. Monthly maintenance/communication and annual renewal are worksheet billing units, not purchased services.

Training Kit		
TOTAL		

C. ADDITIONAL HARDWARE/SOFTWARE

Description	**Unit Cost**	**Sub_Total**
Database Server

Licensed Software / Vendor Platform		
TOTAL		

Description	**Unit Cost**	**Annually**
Software Maintenance		
Incremental Communication		
Software License Renewal		
TOTAL		

Total One Time Cost = Total Development Cost + Total User Training + Total Additional Hardware/Software

This table follows the Breakdown of One Time Cost Worksheet in the supplied academic reference. The total one-time cost of PHP _____ will serve as the initial investment, and the annual recurring cost of PHP _____ will represent additional system expenses. These amounts are left blank because company financial data has not been supplied.

The green company monitoring table records 758 units across 26 equipment categories. It identifies 19 round shovels, 75 GI pipes and 369 swivel clamps under “Missing or No Report,” totaling 463 units. These are reconciliation gaps; the table does not establish confirmed financial losses.

• Benefit

Breakdown of Tangible Benefit Worksheet

A. SUPPLIES COST

EXISTING SYSTEM

Ink			
TOTAL			

Supplies Cost Reduction = Total Supplies of the Existing System − Total Supplies of the Proposed System

Supplies Cost Reduction

B. LABOR COST

EXISTING SYSTEM		
Personnel	**Salary/ Month**	**Annual**
Inventory personnel		
Reporting personnel		
Accountability personnel		
TOTAL		

PROPOSED SYSTEM		
Personnel	**Salary/ Month**	**Annual**
Inventory personnel		
Reporting personnel		
Accountability personnel		
TOTAL		

Labor Cost Reduction = Labor Cost of the Existing System − Labor Cost of the Proposed System

Labor Cost Reduction

Total Cost Reduction = Labor Cost Reduction + Supplies Cost Reduction

Total Cost Reduction

This table follows the Breakdown of Tangible Benefit Worksheet in the supplied reference. Annual supplies cost reduction and labor cost reduction remain blank because the green company inventory table provides no supplies spending, salaries or staffing figures. A reduction in employee headcount or payroll has not been assumed.

The 463 units shown as missing or without reports identify an equipment reconciliation concern. Their monetary value and any equipment-related savings remain blank because replacement prices and confirmed loss or recovery records were not supplied.

HAND TOOLS AND OTHERS MONITORING

ITEM NO.	POWER TOOLS	QTY.	NEED TO COMPLY	MISSING OR NO REPORT
1	SHOVEL (PALA, LAPAD)	19

SOURCE CHECK: 26 populated categories; 758 recorded units; 463 missing or unreported units.

Blank cells are retained as blanks. Only three categories have supplied requirements and reported gaps. The 463 units are not automatically confirmed physical losses. “CATWALK FLATFORM SCAFFOLDING” preserves the spelling in the green source image.

Source: user-supplied green “HAND TOOLS AND OTHERS MONITORING” image. Application records are demonstration data and are excluded.
