HE
From Engineer / Architect / Requests / Search and inspect request records
1
Load authorized records using mcpa_movement_snapshot
Did valid movement data load?
No
Show connection or setup error; preserve last loaded records when available
Retry connection or allow the active view to refresh
1
Yes
Search reference, equipment, project or person; choose a status filter
Filter loaded authorized records; sort newest first
2
Select View details for a record
Is the record still authorized and available?
No
Show record unavailable or access denied
Refresh and choose an authorized record
2
Yes
HK
Continue on next page
To ENGINEER ARCHITECT REQUEST / P4

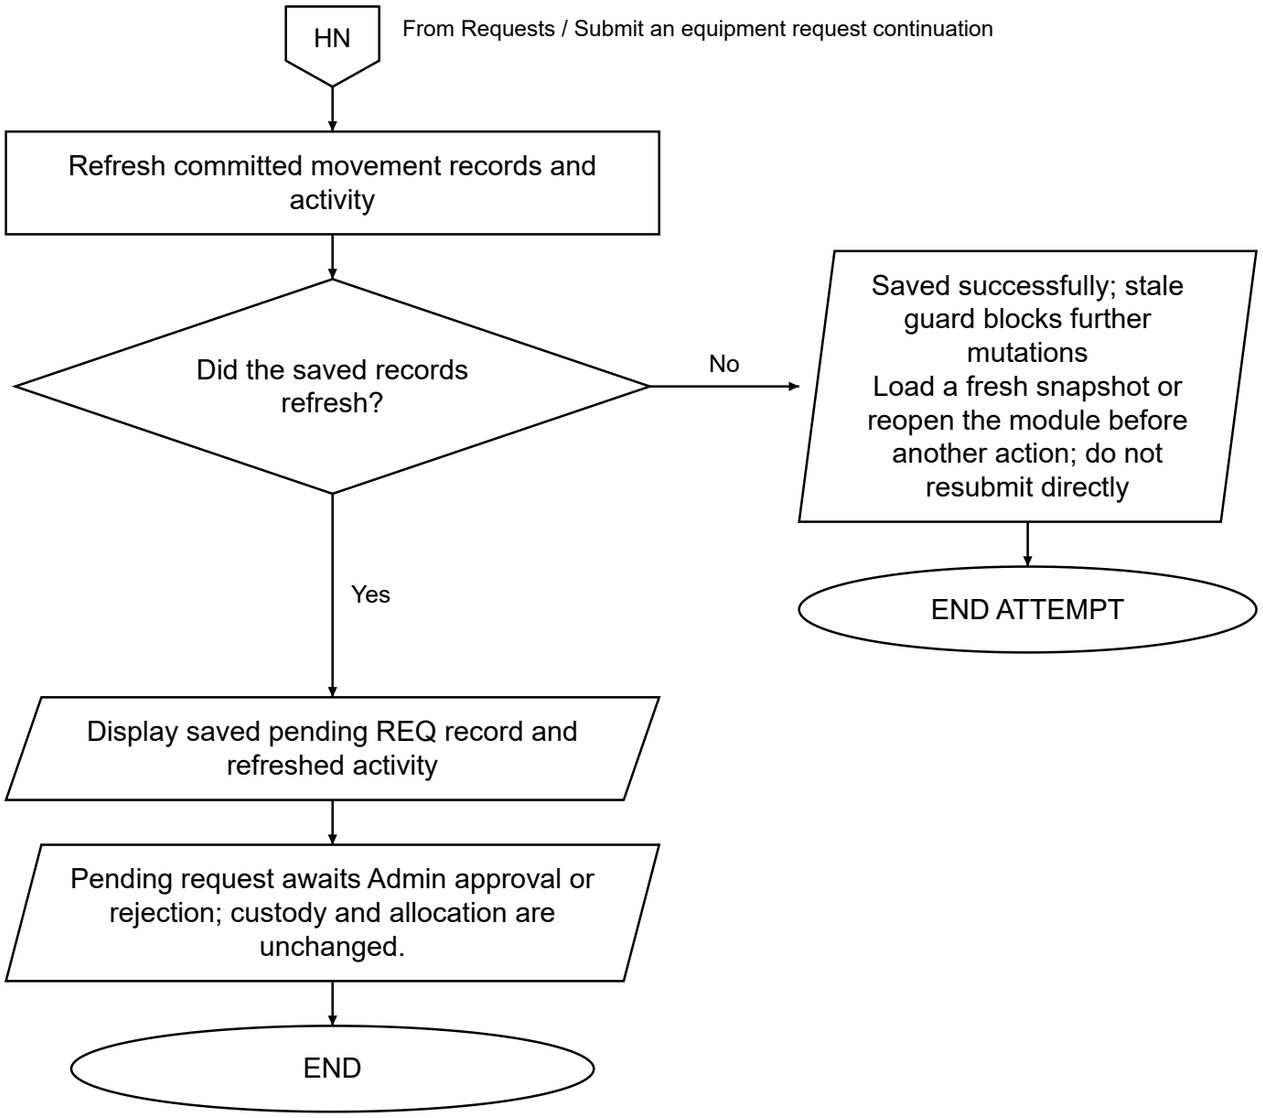

HK
From Requests / Search and inspect request records continuation
Read status, requester, selected tools, project, purpose, due date, reason and linked handover
Close details or follow the available record-specific action
Return to the filtered module list; loaded status and audit details remain visible.
END

Requests

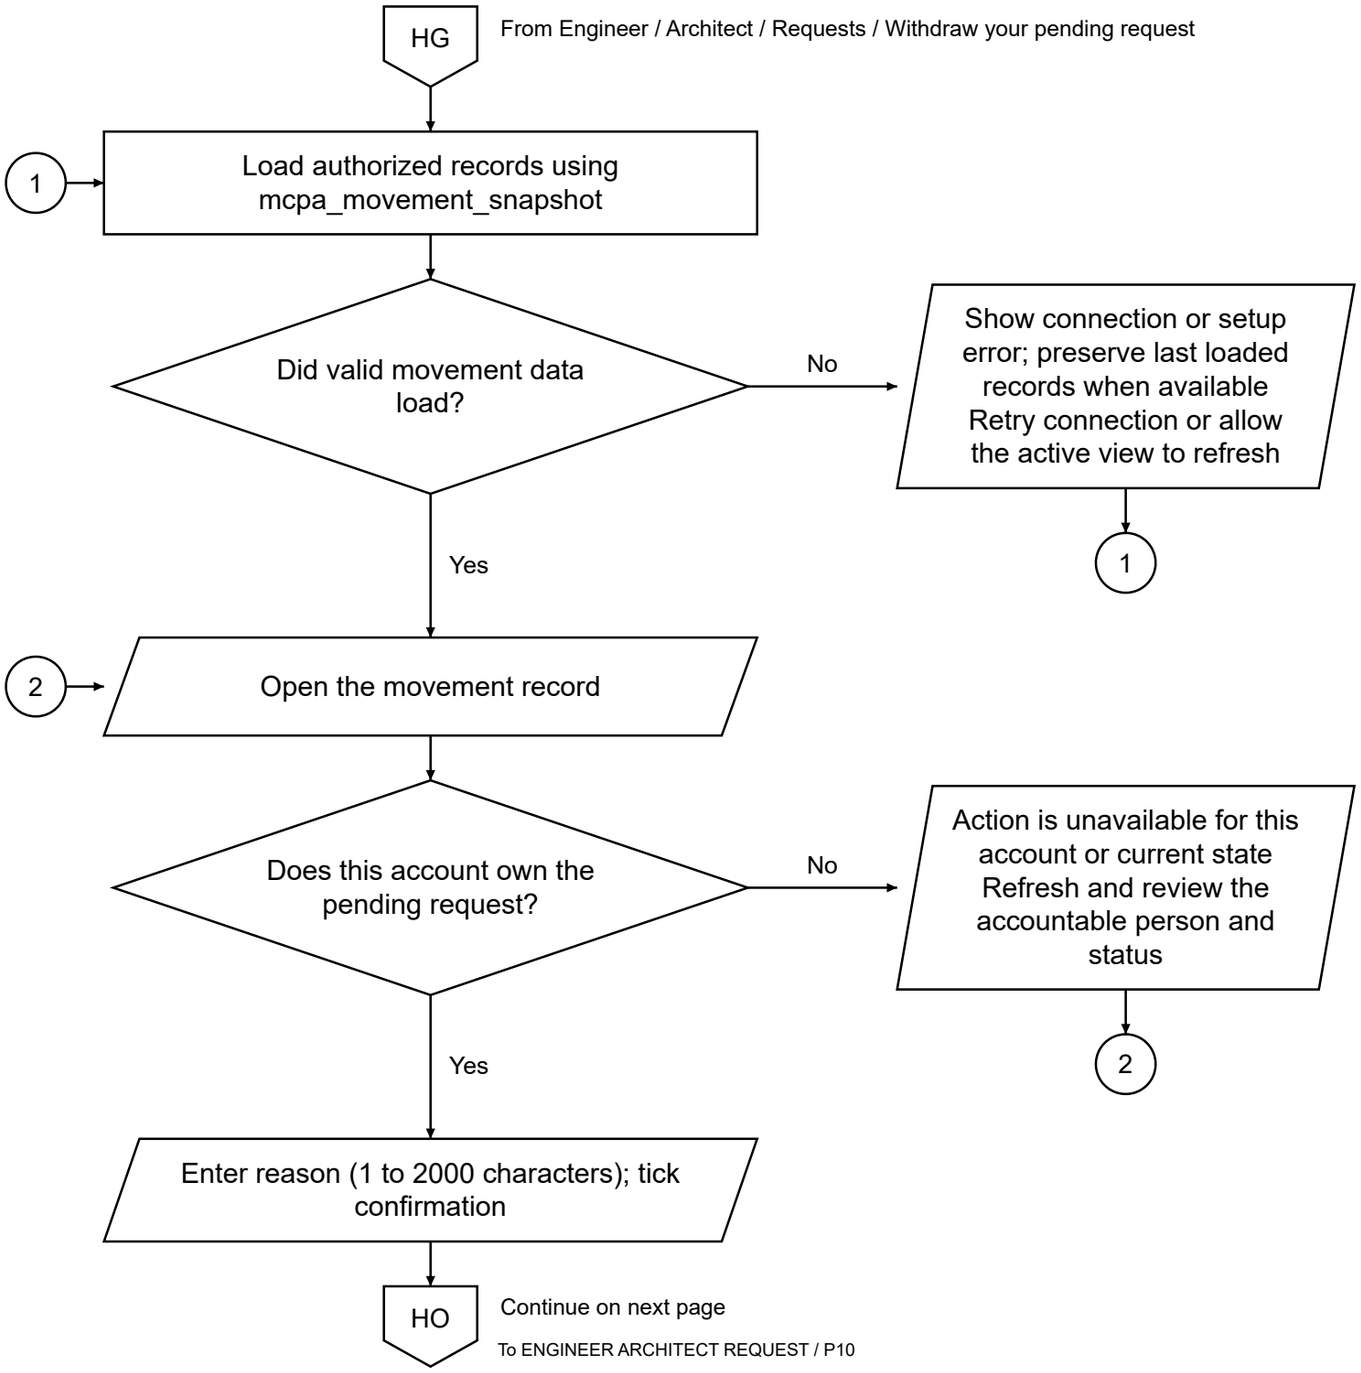

HF
From Engineer / Architect / Requests / Submit an equipment request
1
Load authorized records using mcpa_movement_snapshot
Did valid movement data load?
No
Show connection or setup error; preserve last loaded records when available
Retry connection or allow the active view to refresh
1
Yes
Find active projects assigned_engineer_id equals this account ID
Is at least one active project assigned?
No
Disable request submission; show no assigned project message
Contact Admin and refresh assigned projects
1
Yes
Choose assigned project; one project is selected automatically
Show verified requestable records: available, positive stock, no holder and no allocation
HL
